

Disability Verification

Office of the ADA Coordinator -- The University of Virginia's College at Wise

Please answer the following questions by either typing or writing in legible pen.

1. **State the diagnosed disability:** verifying the presence of a mental or physical impairment which substantially limits the condition, manner or duration in which the person performs a major life activity (learning, working, walking, breathing, etc.) or function and **describe the degree** of impairment or limitation:
2. Provide enough information about the functional impact of the impairment(s) to support and suggest reasonable accommodation(s) that are appropriate and effective.
3. Documentation must be current (generally speaking, three (3) years is acceptable for most disabilities, five (5) years in some cases depending on age and type of disability).
4. Include complete educational and medical history relevant to the disability. (If enough space is not provided on this sheet, **please attach additional pages if necessary.**)
