

The current enrollment report that you have accessed at <http://www.uvawise.edu/registrar/Spring06EnrollmentReport.htm> will no longer update. If you have tried to look at it lately, the enrollment numbers are zero. I know that you use that information daily as you advise students and plan your work for the class size for next term. So, here is a way to get to that information:

- Log onto the faculty portal.
- Click on the Section Inquiry option.
- Indicate the campus you want to view. You can choose one, two or all three from Wise, Abingdon or Center for Teaching Excellence.
- Choose the Spring 2006 session.
- Enter the alphabetic area you want to find courses within. For example, ENGL if you want to see all the offerings in English. Or MATH if you want to see all the offerings in Mathematics. You can be specific if you want to find all the sections of HIST 102 by entering the specific course.
- This access will give you the number of seats taken and the number available.

EXAMPLES OF THE ABOVE STEPS FOLLOW
